

Sea Hercules Cranes Pte. Ltd. (SHCPL) has completed large quantities of crane sheaves design, manufacturing, and heat-treatment processes range from 5MT to 10MT for its own offshore pedestal crane model. The facility in Singapore is equipped with state-of-the-art machinery & personnel specialized in crane's components and sheaves production:

- 1) Full in-house capabilities for sheaves design, manufacturing, and heat treatment.
- 2) Customizing sheaves with Type Approval Certificates from ABS, DNV, LR, or BV.
- 3) Complete manufacturing records and traceability.

SHCPL which is wholly owned by Baker Technology Limited, is registered under the American Petroleum Institute for API Spec Q1 and Q2 for the manufacturing, inspection, and service of pedestal cranes. This includes the manufacture, repair, servicing, and supply of spare parts for pedestal cranes related to the offshore and oil and gas industries.
